A M C – Your *READINESS* Command…*Serving Soldiers PROUDLY* !

Y2K ….. From the White House

"There is no doubt that the year 2000 problem poses significant challenges to our Government, our Nation, and the world. Those of us who are committed to solving this problem will have to perform a delicate balancing act … to increase world-wide attention to the urgent necessity of solving this problem (and) avoid creating panic and precipitous, counterproductive activity. The best way (is) for us to address the challenges that lie before us, in a very aggressive but measured way.

✹ JOHN KOSKINEN, CHAIRMAN,
